

NMM workload plan vs. execution: This will measure the effectiveness of the workload plan's repair quotas being satisfied by comparing actual repair work completed to the annual repair workload plan. NMM will report this quarterly.

Standard/Goal: The goal is to complete 100% of the workload plan's repair quotas.

R&A approach: Monitor efforts in National Maintenance Management. Gain visibility of this benefit by assessing AMC Logistics Web Portal (AEPS) at aeps2.ria.army.mil.

Proponent: AMC/LG
